Experience

Internship / On-the-Job Training

Octal Philippines, Inc.

Front-end Developer

February 2026 – May 2026

- Developed responsive and user-friendly interfaces for a multi-service reservation and management system using TypeScript, React, Vite, and NestJS
- Implemented interactive dashboards, scheduling modules, booking workflows, and membership management features for the Bulacan Pickleball Center Reservation System in collaboration with cross-functional teams.
- Optimized frontend performance, usability, and system responsiveness through debugging, interface enhancements, and user experience improvements, resulting in smoother navigation and more efficient transaction processing.

Capstone Project

PUP Quezon City Branch

Project Manager/Quality Assurance

March 2025 – February 2026

- Led the development and implementation of a Web-based Online Ordering System (OOS) for Capstone, ensuring the successful completion of technical milestones, system requirements, and project deliverables.
- Coordinated with stakeholders and team members to resolve technical issues, align project objectives, and improve collaboration throughout the system development lifecycle.
- Managed Quality Assurance processes through manual testing, test case documentation, defect reporting, and system validation to support continuous improvement and overall application reliability.

Undergraduate Thesis

PUP Quezon City Branch

Researcher

October 2024 – December 2025

- Conducted data gathering and user research involving 300+ respondents to identify key challenges in kiosk-based transaction systems and payment workflows.
- Developed a QR code-based framework to streamline cash-in and bill payment processes, improving transaction efficiency and user accessibility.
- Contributed to analyzing findings and improving system efficiency for a more user-friendly payment experience.

Skills & Interests

Technical: JavaScript, Typescript, React, Vite, FlutterFlow, Python, MySQL, Microsoft Office and Canva.

Interests: Frontend Development, Software Quality Assurance & IT Support Practices, Exploring Emerging IT Trends, Digital Illustrations using Canva, Competitive Sports.

Language: Filipino, English
